Objective

I am interested in creating beautiful experiences for users in the form of well designed websites. With a background in graphic design and visual fx, I recently completed a boot camp course to level up my technical skills. I am looking for opportunities in front end web development, where I can develop my skills. I am currently working on personal projects in the vibrant React ecosystem, in order to boost my portfolio of work.

Skills

Creating full stack web applications using the latest web development frameworks/technologies(**Ruby on Rails, NodeJs, Express, React, Redux**)

Experience working in **React** - using state management tools such as **Redux**, and newer features such as the **Context API** and **React Hooks**.

Solid understanding of object oriented programming languages such as **Ruby** and **JavaScript**

Experience working with both relational and document based databases such as **Postgres** and **MongoDB**.

Working with cloud based services such as **Amazon Web Services**

Experience with unit and integration testing and end to end testing(**Jest/React Testing Library, Cypress**)

Working with **Agile** methodologies and task tracking software(Kanban, Jira, Trello)

Education

Coder Academy Diploma of Information Technology

Mar 2019 - Jan 2020, Melbourne

Learning the fundamentals of web development using the latest technologies

CGSpectrum Diploma of Houdini Fx

October 2017 - August 2018, Melbourne

Learning to create complex visual effects for movies using Houdini Fx

Massey University / Bachelor of Design

Feb 2009 - Mar 2012, Wellington, New Zealand

Completed a bachelor of design majoring in digital media.

Experience

Edway Apps Internship

Feb 2020 - March 2020, Melbourne

Under the direction of a senior developer I helped to develop components for Smart Tools, an online image editing app. Technologies used included Typescript/React/Redux/SCSS.

The Farm Cafe Barista/FOH

Mar 2017 - present, Melbourne

Projects

weather-x.netlify.com - *simple weather app made using React.*
